The key elements of crime and sentencing in non-fatal offence case studies

How statutory rules are made and interpreted
How legislation is made outside of Parliament

How precedents work
Application of the law of negligence

Civil dispute resolution
Enforcement of civil law

Knowledge	Attributes / Character	Skills	Experiences
<p><u>Unit 1: External Unit</u> In unit one, you will learn about the courts that deal with civil law disputes, in addition to alternative methods of resolution. The basic principles of the law of negligence are considered and applied, together with sources of advice, funding, resolution and remedies.</p> <p><u>Unit 2: Internal Unit</u> In unit two you will develop the skills to investigate and research how different laws are made both inside and outside Parliament and then interpreted in courts. You will use these research skills to investigate the way in which the law is developed and applied. You will investigate who decides the outcome of criminal cases and where advice and representation can be obtained and how it can be paid for. You will apply and present this information professionally to clients with the aid of non-fatal offence case studies</p>	<ul style="list-style-type: none"> • Confidence Regular discussions Delivering presentations and Mock Court Trial in lessons.
