

Year 7 Geography

Fieldwork

Biodiversity/Hypothesis/ Data
Collection/Data
Presentation/Assessment Risk

Topic 4: Development

Development indicators,
Development Gap, Causes of
Development Gap, Development of
Ethiopia, Goat Aid

Topic 3: Ecosystems

Ecosystems location, Biodiversity,
Tropical Rainforest, Layers,
Adaptation, Indigenous People,
Exploitation, Conservation

Topic 2: Population and Settlement

Densely and Sparsely Population,
Settlements, Urban and rural areas,
Megacities, Migration, Push and Pull
factor, Opportunities and challenges
in squatter settlements/ Case Study
- Rocinha

Topic 1: Weather and Climate

Latitude/Longitude, Weather,
Climate, Climate Zones, Climate
Change, Heatwaves - UK 2026 Case
Study, Tropical Storms - Case Study -
Hurricane Melissa.

Knowledge	Attributes / Character	Skills	Experiences
- Weather and Climate - Population and settlements - Ecosystems - Development - Fieldwork	- Confidence - Developing new geographical skills and knowledge - Organisation - Homeworks, Online Learning and Exam Preparation - Resilience - Feedback and Redrafting of work each assessment point - Empathy - Exposure to contemporary country case studies and issues.	- Global scale map reading - Use of latitude and longitude - Using compass directions - Locate the 7 continents and 5 oceans - Locate the four major climate zones and describe their location - UK Mapping- Countries/ Relief and Rivers •Choropleth maps (population density UK - Location of ecosystems and description with use of compass directions. - Climate graph completion. - Data manipulation: difference, range - Comparative skills - Interpret a scatter graph	- Visit to Sea Life Centre - Researching Biodiversity at Botanical Gardens
