

Year 8 Geography

Fieldwork

Infiltration/Rivers/Hypothesis/ Data Collection/Data Presentation/Data Analysis/Assessment Risk

Topic 4: China

Population Pyramids; China's population; One Child Policy; Manufacturing/ Fast Fashion CS - Shein; Sustainable alternatives

Topic 3: Polar Climates

Polar Biome; Population of Polar Climates; CS - Nenets; Climate change; Impacts; Threats - Oil Extraction in Middle East; Atlantic Treaty

Topic 2:

Climate Change and Sustainability

Weather vs Climate; Causes and Impacts of CC, Greenhouse gas effect; Case Study - Bangladesh; Renewable energy; CS Morocco and Costa Rica

Topic 1: Population and Settlement

Densely and Sparsely Population, Settlements; Urban and rural areas; Megacities; Migration; Push and Pull factors; Opportunities and challenges in squatter settlements/ CS - Rocinha

Knowledge	Attributes / Character	Skills	Experiences
- Population and Settlements - Climate Change and Sustainability - Polar Climates - China - Fieldwork	- Confidence - Recall of prior learning to learn new and more challenging geographical content and skills. - Organisation - Homeworks, Online Learning and Exam Preparation - Resilience - Feedback and Redrafting of work each assessment point - Empathy - Exposure to whole world crises including climate change, fast fashion, resource depletion.	- Climate trends - Cost-benefit analysis - Map reading - Graph analysis - Identifying locations - Describing locations - Developing explanation skills - Knowledge of different case studies - Data analysis - Image analysis - Grid Reference	- Fieldwork / Rivers - Knowledge of real life example e.g Shein Case Study. Morocco or Rocinha.
